### Background

For the first time, Flexo technology became a competition process in addition to Sheetfed. The competition, open to all graphic schools, was divided in two parts: the design of a package and a poster and the “print production” of the best package and poster using sheetfed and flexo simulators. The contest used Sinapse Print simulators for Sheetfed (6-color press) and Flexo (8-color press) and practice problems included those used in recent WorldSkills competitions.

The contest will be followed by an Award Ceremony in presence of the winners of the **DESIGN Competition:**

**BEST POSTER:** Larissa Moreira Antonio, SENAI Bauru, Brazil

**BEST PACKAGE:** Edoardo Androvetto, Istituto Salesiano San Zeno, Italy

And in presence of our sponsors:
